ALL BIDDERS PLEASE READ

Terms Governing This Sale

Bidders unknown to us will please furnish bank or other references or deposit 25 percent with their bids, and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. **You must be satisfied. PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 percent over the next highest bid. Numbers in () are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

NOTICE TO NEW BIDDERS

Our Mail Sales Are Conducted As Follows:

1. Bids are entered in the order received; if identical bids are received, the first bidder is awarded the lot. **SEND BIDS AIRMAIL — IT PAYS.**

2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. **Bids you send in are the maximum you are willing to pay for the coin. WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.**

3. Valuation placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. **YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED.** No, you won't receive a nasty letter for returning a coin — instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins for each sale. Whenever this happens, we want it called to our attention to help prevent future errors.

Any lots may be inspected prior to the sale. Collector is liable until received by us. Collector to pay postage and insurance both ways.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

IS THIS YOUR FIRST AUCTION CATALOG?

25th EDITION (1972) GUIDE BOOK, PAPER MONEY 6th EDITION,
"TRENDS" AND OTHER AUCTION RECORDS
USED IN CATALOGING

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of various records and publications which reflect the actual and not theoretical values. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, CURRENCY, ETC. ARE ESTIMATED AT CATALOG).** In the final analysis, you the collector, are the one who sets the price.

BIDS ARE RECORDED AS FOLLOWS: Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.50. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth, or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even tho auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them, as well as any compliments.

Please allow up to two weeks for receipt of coins; unsuccessful bidder will be notified.

**YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING
SUCCESSIVE CATALOGS WITHOUT INTERRUPTION**

BARGAINS

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN

YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints (yes we receive some now and then), we want to hear them. Having cataloged over two hundred ninety successful coin sales, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 percent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 11¢ airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the bid sheet. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

Want List, Comments, or Special Instructions

PATTERN & EXPERIMENTAL HALF CENT

- ✓ 1—1856 JP-177, The regular dies but struck in copper-nickel to test striking qualities of metal proposed for new small cent (famous 1856 Flying Eagle struck later in year). Most of the 50 specimens struck over a century ago seem to have been carried as "pocket pieces" or "spent" as they show varying degrees of wear. This is one of the choicer specimens with only a slight degree of friction evident, much of original prooflike luster still retained. Popular for denominational pattern sets, etc. Catalogs low at only 300.00

PATTERN & EXPERIMENTAL CENTS

- 2—Undated (1851) J-128, CENT, ONE TENTH SILVER (attempt at acceptable ring cent) prooflike. R-6 (ONLY 13 TO 30 STRUCK!). Popular type. 125.00
- 3—1854 J-158 Liberty Seated as in silver coins, copper-nickel, proof. Interesting experimental piece (obverse die preparation from copying lathe evident). R-6 (ONLY 13 TO 30 STRUCK!). Superior to most (which generally are on defective planchets). 125.00
- 4—1854 J-171 Liberty Head, intermediate size (smaller than Lg 1c) GLITTERING BLUISH OLIVEPROOF WITH WIRE EDGE, CHOICE! RARE THUS. 150.00

5—1856 J-180 FLYING EAGLE, Adopted Feb. 21, 1857 as REGULAR ISSUE, BLUISH OLIVE PROOF! Catalogs	2,500.00
---	----------

- 6—1858 J-191 REGULAR FLYING EAGLE obverse with Small Letters combined with REGULAR LAUREL WREATH reverse of 1859, GLITTERING GOLDEN PROOF. Popular as "TRANSITIONAL COIN". R-5 (Only 31 to 75 struck). Old records of \$475 and 500.00
- 7—1858 J-192 Similar regular Flying Eagle obverse with Small Letters combined with Oak Wreath reverse without shield (oak wreath & shield adopted 1860) GLITTERING GOLDEN PROOF. R-5 (Only 31 to 75 struck). Catalogs \$265 but has records around 350.00
- 8—1858 J-193 Similar regular Flying Eagle obverse with Small Letters combined with Oak Wreath & broad, ornamental shield reverse, GLITTERING GOLDEN PROOF. R-5 (Only 31 to 75 struck). Catalogs \$265 but records around 350.00
- 9—1858 J-204 Smaller Flying Eagle combined with above reverse, GLITTERING GOLDEN PROOF. R-5 (Only 31 to 75 struck).
- 10—1858 J-208 REGULAR INDIAN HEAD OF 1859 combined with REGULAR REVERSE OF 1859, GLITTERING GOLDEN PROOF. Popular "TRANSITIONAL COIN". The 1971 Scott Catalogue places this with the regular coinage along with the 1856 Flying Eagle and states "Actually a pattern, but a quantity of non-proofs were placed in circulation, probably the same year." As collectors begin to include this with their regular Indian sets, we feel the price will rise to closer to that of the 1856. Catalogs low at only 375.00
- 11—1858 J-211 REGULAR INDIAN HEAD OF 1859 combined with OAK WREATH (no shield) reverse, GLITTERING GOLDEN PROOF. R-5 (Only 31 to 75 struck). Catalogs 235.00
- 12—1859 J-227 REGULAR INDIAN HEAD combined with Oak Wreath & broad, ornamental Shield reverse, GOLDEN. R-6 (ONLY 13 TO 30 STRUCK!) Records over 300.00
- 13—1860 J-265 REGULAR DIES Trial Piece struck in pure copper, bluish color, prooflike. R-7 (ONLY 4 TO 12 STRUCK!). Acquired several years ago as "A GREAT RARITY" at 350.00
- 14—1863 J-299 EXPERIMENTAL PIECE, Regular Dies but struck in bronze (similar to 1864 no "L" bronze in thickness) GLITTERING RED & BLUISH PROOF. Often included in "TRANSITIONAL COIN" set. Catalogs \$450 but records over 500.00
- 15—1863 J-300 EXPERIMENTAL PIECE, Regular Dies in copper-nickel with REEDED EDGE, Glittering Golden & Bluish Brown Uncirculated. Said to be an attempt at reeding the minor coinage to conform with the silver & gold coins. R-7 (ONLY 4 TO 12 STRUCK!). Catalogs 435.00

PATTERN & EXPERIMENTAL CENTS (Cont.)

16—1864 **UNLISTED EXPERIMENTAL CENT**, Unfinished details in lower feathers, hair, etc.; also **SPIKED 4** in date (projection extends left from base of 4) appears to be struck in copper, 48 grains weight, thin planchet. Judd now lists J-356a (in new fourth edition) as "Copper-P.E. Thick planchet." however this is a thin planchet, Red & bluish olive with Raised Edge. Valued by owner at 750.00

17—1865 J-406 **REGULAR DIES** Trial Piece struck in pure nickel on thin planchet, **BRILLIANT PROOF. R-7 (ONLY 4 TO 12 STRUCK!)**. Catalogs (we believe a bit low) at 750.00

PATTERN & EXPERIMENTAL 2¢ PIECES

18—1863 J-312 Resembles 1864 Small Motto adopted in 1864 but "GOD OUR TRUST" motto and curved "CENTS", thin planchet, deep red. Catalogs 175.00

19—1864 J-371 **REGULAR DIES** (Large Motto) but struck in copper-nickel, **BRILLIANT GEM PROOF! R-7 (ONLY 4 TO 12 STRUCK!)**. 250.00

20—1865 J-408 **REGULAR DIES** but struck in pure copper, **BRILLIANT GEM PROOF! R-7 (ONLY 8 SAID TO HAVE BEEN STRUCK!)**. 250.00

PATTERN & EXPERIMENTAL 3¢ PIECES

21—1864 **TRIME J-375 REGULAR DIES** Trial Piece struck in copper, **CHOICE PROOF. R-7 (ONLY 4 TO 12 STRUCK!)**. Catalogs low at only 200.00

22—1865 **NICKEL J-413 REGULAR DIES** Trial Piece struck in copper, **CHOICE PROOF. R-7 (ONLY 4 TO 12 STRUCK!)**. Catalogs \$90 which seems ridiculous for a R-7; surely R-7 worth at least 125.00

23—1865 **NICKEL**, Regular Dies & Regular Composition (copper-nickel) but slightly larger planchet, unc. Possibly a Mint Error. 50.00

PATTERN & EXPERIMENTAL 5¢ (NICKELS)

24—1866 J-501 **REGULAR DIE** obverse (shield) combined with tall 5 in wreath reverse, struck in nickel, **BRILLIANT BLUISH PROOF. R-6 (ONLY 13 TO 30 STRUCK!)**. Catalogs \$250 which seems a bit low for R-6.

25—1866 J-509 **REGULAR DIES** (obverse & reverse) as adopted in 1867 (no rays), struck in bronze, **GLITTERING RED & BLUE PROOF, HIGH WIRE EDGE BOTH SIDES! Popular "TRANSITIONAL"**. Catalogs 350.00

26—1882 J-1684 Liberty Head similar to adopted 1883 except **UNITED STATES OF AMERICA** in place of stars, reverse "V" in wreath with motto, struck in nickel, **BRILLIANT BLUISH PROOF, WIRE EDGE! R-6 (Only 13 to 30 struck!)**. Catalogs 450.00

27—1882 J-1687 Liberty Head similar to adopted 1883 type except "IN GOD WE TRUST" above head, reverse **REGULAR "No CENTS" DIE** adopted 1883, struck in nickel, **BRILLIANT BLUISH PROOF, WIRE EDGE! R-7 (ONLY 4 TO 12 STRUCK!)**. Popular. Catalogs \$700 but we saw a specimen some years ago at 1,000.00

28—1882 J-1692 **REGULAR DIES** (obverse & reverse) **AS ADOPTED 1883** (no CENTS) struck in aluminum, **BRILLIANT BLUISH PROOF, HIGH WIRE EDGE BOTH SIDES! R-7 (ONLY 4 TO 12 STRUCK!)**. **POPULAR "TRANSITIONAL"**. **CATALOGS** 1,000.00

29—1882 J-1693 Similar to Regular Die obverse (shield) except no ball on point of shield above date, **REGULAR REVERSE (5 in circle of stars)** struck in nickel, **BRILLIANT BLUISH PROOF, WIRE EDGE! R-6 (Only 13 to 30 struck!)**. Catalogs 450.00

- 30—1883 J-1711 Experimental Liberty Head obverse similar to J-1684, reverse “50N. (nickel), 50C. (copper)” with “FIVE CENTS” & stars around, struck in aluminum, BRILLIANT PROOF WITH HIGH WIRE EDGE BOTH SIDES, pinpoint nick on wire edge. R-7 (ONLY 4 TO 12 STRUCK!). Catalog of only \$135 seems low for R-7.
- 31—1883 J-1712 Experimental, similar obverse but reverse “33N. (nickel), 67C. (copper)”, struck in nickel, BRILLIANT SLIGHTLY GOLDEN PROOF. R-7 (ONLY 4 TO 12 STRUCK!). Popular 250.00

32—1883 J-1714 Liberty Head similar to adopted “no CENTS” type except “LIBERTY” above head instead of on coronet, struck in nickel, BRILLIANT PROOF WITH RAISED EDGE BOTH SIDES! POPULAR RARITY. The last specimen we saw was 3 years ago at \$1,000; probably now worth closer to 1,100.00

- 33—1883 J-1719 REGULAR LIBERTY HEAD OVERSE & NO CENTS REVERSE except “CENTS” added across “V” of reverse, struck in aluminum, BRILLIANT BLuish PROOF. POPULAR. R-7 (ONLY 4 TO 12 STRUCK!). Catalogs \$300 but we believe the strong demand for this type will send it over 350.00
- 34—1896 J-1770 Shield over crossed poles, struck in nickel, BRILLIANT SLIGHTLY GOLDEN PROOF. Popular as “Last obtainable pattern”. Acquired 3 years ago at 200.00

63—1879 J-1601 POPULAR MORGAN DESIGN (same as for \$1), reverse erect eagle, silver, BRILLIANT SLIGHTLY GOLDEN PROOF, WIRE EDGE! An unusually choice specimen of this RARE TYPE.	500.00
---	--------

PATTERN & EXPERIMENTAL DOLLARS

64—1871 J-1147 Popular Indian Princess (Longacre design), REGULAR DIE reverse, copper, GLITTERING RED & BLUISH PROOF, WIRE EDGE! R-7 (ONLY 4 TO 12 STRUCK!). Acquired several years ago at	255.00

66—1878 J-1554 Liberty Head with motto "IN GOD WE TRUST" at top (Barber's design rejected in favor of Morgan's larger Liberty Head), eagle with closed wings, silver, BRILLIANT PROOF, WIRE EDGE! A premium specimen worth over its catalog of	300.00

67—1885 J-1749 Snowden's EXPERIMENTAL PIECE, REGULAR DIES (obverse & reverse) with motto "E PLURIBUS UNUM" & stars on edge in place of reeding. aluminum, BRILLIANT PROOF WITH WIRE EDGE! REMARKABLY CHOICE! R-8 (ONLY 2 OR 3 STRUCK!!). This experiment (motto on edge) was later adopted in striking the beautiful 1907 \$20 St. Gaudens design with Roman date & Motto-Stars edge. The last time we were fortunate to handle a specimen of this popular design experimental piece was two years ago when we cataloged one in silver (J-1747, R-5, 31 to 75 struck) which realized \$1,500.00. Any price listed for this GREAT RARITY would be theoretical. While patterns struck in metals other than that for regular coinage generally bring less, this is often times compensated for when these are Extremely Rare.	
--	--

68—1852 Experimental GOLD DOLLAR for a larger size than the regular one (Larger Size to be compensated for with perforated center). Envelope states "Gilt (gold plated) copper-nickel" (J-148) WIRE EDGE! J-148 Catalogs \$150 but gilt specimens are not valued separately; the last gilt specimen we saw was J-147 (same rarity) valued	250.00

FRACTIONAL CURRENCY — PROOFS & SPECIMENS

Usual narrow margins (intended for shield) unless otherwise stated. "WIDE MARGINS" include Wide, Very Wide & Extremely Wide Margins varieties . This specialized collection is an attempt to collect all known (& unknown) varieties. We believe the increased interest in this series will lead to the inclusion of more varieties in the coming editions of the references. Present values should then appear as "bargains" — a trend which has taken place in other series. Watermark refers to "CSA" in paper (intended for Confederacy but captured & used by North for fractional currency).

NEW YORK CITY — "RACKETEER" BANK NATIONALS

248—F469 Rosecrans-Jordan, \$5 CHARTER 1000, Bank of the Republic, very fine. Bank liquidated 1901. Racketteers would place a note (1882 brown back) with huge "1000" across reverse over a roll of \$1 to \$5 notes and "flash the roll of bank notes" hurriedly. Since very few people had ever seen a \$1,000 denomination note, it was easy to give the impression of the roll of notes containing a large sum. Have seen a similar specimen some years ago valued at	500.00

FIRST TYPE HALF DOLLARS — FLOWING HAIR 1794-95

“Overton” refers to the definitive book on lettered edge halves 1794-1836 by Overton in 1967.

304—1794 15 STARS (states) SMALL EAGLE, Overton 1 variety, 21 berries (10X11) called “VERY RARE” by Overton. Condition is very fine for date, stars & Liberty with most of bust being closer to fine; most of reverse is Extremely Fine with central portion of eagle being very fine. A superior specimen of this rarity! Well worth 1,500.00

305—1795 Overton 23 variety (Recut 9 in date & 9X8 berries), UNCIRCULATED, SHARPER STRUCK THAN MOST with Deep Edge Dentilations Both Sides, nearly all feathers of eagle’s breast well defined, some short “mint equalization marks” (done at mint at time of manufacture to bring coin down to proper weight, thereby saving the cost of melting & recoinage) on obverse, lovely bluish golden patina, faint rubbing visible under a glass. Called “VERY RARE” by Overton. Called “Condition Census” when acquired in 1963 & valued then at \$2,500.00. Present value?

307—1795 Recut Date, Overton 29 variety (who calls it “VERY RARE”). Acquired 5 years ago described “1795 DOUBLE (Recut) Date, very good to fine, “FAITH HOPE CHARITY” lightly engraved on obverse. Only such specimen seen. The normal recut date catalogs v.g. \$350 and fine \$500; this interesting specimen worth closer to the \$500.00. Present value?

1796 16 STARS, SMALLER EAGLE, “1/2” BELOW — RAREST TYPE 50¢

308—1796 16 STARS (states) EXTREMELY FINE, pinpoint nick visible when closely examined, SHARP STRUCK WITH EDGE DENTICLES DEEP (both sides) & RAISED EDGE BOTH SIDES. ONE OF THE RAREST OF ALL HALF DOLLARS! In addition, IT IS THE RAREST TYPE HALF DOLLAR! The strong demand is reflected by the Guidebook advancing its value from the 23rd to the 24th edition and again from the 24th to the recently issued 25th edition. Its great rarity in the choicer states of preservation accounts for its not being listed in better than very fine condition. Much rarer than the 1796 15 stars variety. This SUPERIOR specimen surely worth at least 7,500.00

SHARPER STRUCK THAN ANY SPECIMEN WE CAN RECALL SEEING! FULL EDGE DENTICLES BOTH SIDES , only slight flattening of right wing tip (nearly all seen have considerable flattening), SHARP EDGE LETTERING . The 1971 Standard Catalogue does not price this "unc." & states " Always flatly struck up. In combination with Beistle rev. B, one an dthen two hollows develop in the edge opposite the 5th and 7th stars. These are result of a heavy die break at the rev. rim, and are not the planchet chips they seem. EXTREMELY RARE IN UNC. " The present owner was cognizant of the great rarity of this coin in this remarkable condition, therefore he was willing to pay \$1100 for it 5 years ago; surely it should now realize closer to	1,500.00

325—1806 Pointed 6, stem thru claw, Overton 26, small lump after 6 which sometimes leads the uninformed to conclude it is an overdate, extremely fine, usual flat striking although the edge denticles are deep and sharp BOTH SIDES.	235.00

"UNPUBLISHED 1822 OVER 21 HALF DOLLAR, LETTERED OVER (EXPERIMENTAL) REEDED EDGE"

416—Lot 810 of New Netherlands 12/63 sale with above heading & described "1822 over 1821, B. 7-G. Lettered over reeded edge. Overdate on this as plain as it ever comes; some iridescent toning. THIS IS THE FIRST SUCH EDGE THAT WE HAVE SEEN ON HALF DOLLARS PRIOR TO 1836, AND IF IT IS NOT UNIQUE, IT CERTAINLY EXTREMELY RARE. To arrive at some sort of valuation, we can only note that a (VG grade) 1795 cent with experimental reeded edge (of which four specimens are known) realized \$660 way back in 1953 when prices were much lower than they are today. IN OUR OPINION, THE PRESENT OFFERING IS OF EQUAL IMPORTANCE AND POSSIBLY OF GREATER RARITY. If we had it in stock, we would price it at no less than \$1,000.00. Evidently marked by the Castaing machine from a bar which had formerly been used to impress edge reeding on gold eagles. Since, however, no eagles were struck at the Mint after 1804, the possibility of error is excluded, and we are forced to the belief that the initial reeding on the present piece represents an experimental edge similar to that on the 1797 half cent and 1795 cent. The reeding has been somewhat blunted by its second entry into the Castaing machine, but it is visible in varying degrees throughout the edge, being, perhaps, most prominent following the word DOLLAR.

This **EXPERIMENTAL PIECE** came upon the market again 3 years later in 11/66 where it was valued \$1,500.00. It is now available again, 5 years later, in this outstanding collection. Who knows how many more years will elapse before it again comes upon the market (providing it is not impounded in a museum or foundation). Surely this GREAT RARITY now worth over \$2,500.00. It deserves a place among other rarities such as 1817 OVER 14.

<p>595—1919-D Brilliant slightly golden Uncirculated, SHARPER STRUCK THAN MOST. A "GEM" specimen free from the usual "bag-marks" which plague this series. Well over 90% of the specimens we have seen in our 38 years as professionals have come with "scalloped center" (struck from worn or defective dies). The "catalog" value of \$550 is for "average unc." and not for a premium well-struck specimen such as this. This specimen seems to fit the description of the Miles coin (Stack's April 1969 auction) described "Brilliant Uncirculated. The head is struck up more fully than generally seen, with some softness in upper portion of skirt which is characteristic of this entire series." That coin (2½ years ago) then cataloged \$485 and realized \$700; we believe this VERY RARE specimen will now realize over \$800.00. Actually, based on rarity, and considering the strong demand (we have a number of want-lists on hand for such a specimen) we would not hesitate to ask (if it were our stock)</p>	950.00

\$100 1875 LEGAL

735—\$100 F-170, 1875 Very Fine, nice margins. **VERY RARE!** How many more years will elapse before another specimen comes upon the market? We believe present valuations to be theoretical rather than being a reflection of specimens actually changing hands. Easily worth 1,500.00

\$10-\$50-\$100 COMPOUND INTEREST NOTES

736—\$10 F-190, 1864 Bust Chase, extremely fine. **VERY RARE SO CHOICE!** Listed in catalog only in "fine" condition due to rarity of specimens in superior condition. Easily worth 2,500.00

737—\$50 F-192, 1864 Bust Hamilton, extremely fine (close examination with a glass reveals tiny spot on reverse caused by gold of obverse overprint). **VERY RARE IN ANY CONDITION BUT EXCESSIVELY RARE SO CHOICE!** As B. Max Mehl would say, "I don't know which is rarer, the note itself or the opportunity to buy it". Easily worth over 6,000.00

738—\$100 F-193, 1865 Bust Washington, note has evidently become brittle due to improper storage and then restored by preserving it in plastic (some pieces missing—mainly some portions containing the overprint—caused by acid in ink). Note would probably grade "Extremely Fine" if it were not for above mentioned items. We note the catalog values "fine" at \$3,500.00. What this is "worth" is difficult to determine. The note was purchased 11 years ago in 1960 at \$750; surely it should now exceed \$1,500, perhaps closer to \$2,000.00. **IT IS HIGH AMONG THE RAREST OF ALL U.S. NOTES!**

Consignment C — Georgia

1792 HALF DISME

1110—1792 Near Uncirculated with lovely patina. Close examination with glass reveals some clever “improvements” on reverse to enhance its appearance some time ago. It has since acquired a pleasing patina which makes any alteration to the original surface difficult to see unless closely inspected. **VERY RARE.** Mounted in attractive plastic holder lettered “1792 HALF DISME” & “Struck From Washington’s Silver plate, Mentioned by Washington in His Message To Congress In Nov. 1792.” The Guidebook lists only 3 conditions, Good @ \$600; Fine \$1,000; V. Fine @ \$1,750.00 We believe this choice specimen worth between \$2,500 & 3,000.00.

1792 DISME

1111—Lot 713 of sale five years ago described “1792 Bust liberty with flowing hair, “LIBERTY PARENT OF SCIENCE & INDUS.”, reverse flying eagle with DISME below, UNITED STATES OF AMERICA, struck in copper with reeded edge, MAGNIFICENT UNCIRCULATED SPECIMEN WITH LOVELY BLENDED BLUISH BROWN PROOFLIKE SURFACE, SHARP STRIKE WITH FULL DEEP DENTICLES. A BREATHTAKING SPECIMEN ACQUIRED AS “FINEST KNOWN”. Triple demand as “First United States Mint Issues” (page 58 of Guidebook), the “First Dime (Disme)” and as “Number 10 In Dr. Judd’s Book of United States Pattern And Experimental Pieces”. Listed as “R-7” (ONLY 7 TO 9 TOTAL KNOWN IN ALL CONDITIONS!) Acquired at that sale (5 years ago) at \$23,000.00. What it might now bring is problematic.

1792 BIRCH CENT

1112—"1792 LIBERTY PARENT OF SCIENCE & INDUSTRY" around bust, reverse **"UNITED STATES OF AMERICA 1/100"** around wreath with **"ONE CENT"**. Edge Lettered **"TO BE ESTEEMED * BE USEFUL *"**. The bust is extremely fine with date and obverse legend being very close to uncirculated (only barest friction), pinpoint edge nick. The wreath is extremely fine with some evident die failure at center resulting in ONE CENT not being fully struck up, the outer legend and fraction are particularly strong with only barest friction. **A TOP GRADE SPECIMEN OF ONE OF THE MOST DESIRABLE & RAREST OF ALL U.S. COINS!**

There is a full page ad accompanying this remarkable specimen (April 27, 1962 COIN WORLD page eleven describing this coin as **"Boldly struck on the obverse, and reverse is well struck with exception of N of ONE, however it is an Extremely Fine to About Uncirculated specimen. Choice chocolate toning. Truly a great gem at only \$10,000.00"**).

It is listed on page 58 of Guidebook under **"FIRST UNITED STATES MINT ISSUES"** but it is not priced due to its great rarity. The Scott Catalog lists it on page 194 as **"3-B, HIGH R-7 (ONLY 4 TO 6 KNOWN) WITH A VALUE OF \$15,000.00 (but does not state condition). We feel this choice specimen worth** 20,000.00

1796 PROOFLIKE DIME

1113—Acquired from 1966 sale described **"1796 Variety with die break below first star at left, SHARPLY STRUCK WITH HIGH WIRE EDGE BOTH SIDES, PROOFLIKE SURFACE, interesting die clash marks obverse. Evidently the dies clashed together without a planchet between, resulting in the obverse die showing some of the markings of the reverse die. These markings showed up on the early impressions and gradually faded out with the use of the die. They tend to lend "personality" to our early coins and many collectors are attracted to these early "personality coins". The specimen in the Lester Merkin auction (April 1, 1966 — New York City) realized \$5,600.00."** Glittering deep blue patina. The demand for top-condition specimens such as this has increased since then. What this remarkable specimen will now bring is a matter of conjecture.

1798 "BRILLIANT FROSTY UNCIRCULATED" DIME

1114—1798 Large (medium) 8, from a sale 5 years ago described **"BRILLIANT FROSTY UNCIRCULATED, sharp everywhere except at border. In fact, it fits the Merkin sale specimen description of "One of four specimens known in mint state and believed SECOND FINEST KNOWN."** The present owner purchased this specimen at that sale for \$1,675.00. Surely it should now exceed 2,000.00

CAPPED BUST LARGE SIZE DIMES 1809-1828, UNC. & PROOF

1115—1814 Small Date, **UNCIRCULATED** with lovely blended glittering golden & blue patina. The Merkin sale (April 1966 — N.Y. City) offering the choicest collection of dimes to ever appear at public sale, also had a specimen which they described **"Very rare in the upper condition levels, and rarer in all grades than the 1811. Possibly the most underrated dime aside from the 1828's and the early S mint coins. None in WGC! (World's Greatest Collection)." The Merkin specimen fetched \$500 then (over 5 years ago) after spirited bidding. Due to the rarity of this date in this condition, we cannot be certain that the specimen here being offered is not that particular coin. Regardless of its pedigree, its rarity is corroborated by the Scott Catalog which states "34,500 struck (compared to 387,000 1814 Large Date) Excessively rare in unc. Traditionally much underrated in all grades, unc. \$425.00 (com-**

pared to \$175 for 1814 Large Date)". The new 1972 Guidebook recognizes the continuing strong demand for uncirculated early coins by listing the 1814 Large Date at \$200; therefore the small date should now have a catalog value of closer to \$500. As frequently happens with rarities, particularly those in choice condition, the \$500 level was actually reached over 5 years ago on April 1, 1966, after spirited bidding in a public sale. Reality must take precedence over "theoretical values", therefore we feel this rarity should now fetch closer to

750.00

1116—1821 Small Date, coinage figures not divided so we do not know how few small dates were struck compared to the usual-offered Large Date. **GLITTERING GOLDEN PROOFLIKE UNCIRCULATED, SHARP STRUCK GEM!** Possibly the specimen in the outstanding dime collection in the Merkin sale (April 1966) as it seems to conform to the description contained therein. Further, it has "\$675" on the envelope, which is the price Merkin sale specimen fetched then, over 5 years ago, Merkin stated there **"VERY RARE COIN, FAR RARER THAN 1809 AND ONE OF THE MOST UNDERVALUED TYPES IN THE SERIES"**. What this rarity will now fetch is problematical.

1117—1820 Large O (date), **PROOF WITH GLITTERING GOLDEN & BLUE PATINA.** Not contained in the outstanding dime collection in the Merkin 1966 April sale, which did have this date in the small "o" variety in "Prooflike Unc." That Merkin sale coin fetched \$350 then (over 5 years ago) when the ordinary "unc." cataloged only slightly more than half the value in the present Guidebook. **The present strong demand for top-grade specimens of this "type" (1809-1828) leads us to believe this rarity could fetch in the neighborhood of 1,000.00**

NEW TYPE CAPPED BUST, SMALL SIZE DIMES 1828-1837, PROOFS, ETC.

1118—1828 SMALL DATE, GLITTERING BLUISH GOLDEN PROOFLIKE GEM WITH "SQUARE EDGE" & RAISED BORDERS GENERALLY ASSOCIATED WITH PROOFS! A remarkable specimen of this rare date acquired as "PROOF". Perhaps it is; but since it does not have the "depth" of surface of some dates we have seen in the 1830's, we are hesitant to "stick our neck out" and call it a full proof. The difficulty lies in the fact that early proofs of this period varied in quality from year to year and striking to striking within the same year. Oftentimes, these early proofs were a "necessary evil" to the mint (struck at the request of some V.I.P.) and interfered with their regular work. Some planchets were more carefully prepared than others with varied preparations given to the dies. In fact, frequently regular dies were temporarily pressed into this use' after only perfunctory preparation. The rarity of this date is recognized by the Scott Catalog stating only **"20,000 struck .EXTREMELY RARE IN UNC. 350.00"**. It is many times rarer than all the other dates of this type (coinage from 359,500 to 1,410,000)! **We do not know what this remarkable specimen will bring; but if Rarity, Condition & Demand are considered, surely it should realize at least**

1,000.00

1119—1829 Small 10c, **PROOF WITH GLITTERING DEEP GOLDEN & BLUE PATINA VERY RARE.** The Miles specimen (Stacks April 1969) 2½ years ago realized \$800 when it catalogued over 25% less for unc.; surely this proof should now exceed

1,000.00

1120—1829 MEDIUM 10c, GLITTERING PROOF WITH DEEP GOLDEN & SOME BLUISH PATINA. **VERY RARE.** Should exceed

1,000.00

1121—1830 LARGE 10C, GLITTERING GOLDEN PURPLE GEM PROOF! A "FANTASTIC" SPECIMEN DESERVING OF SEVERAL SUPERLATIVES! According to the leading authorities **"ONLY ONE OR TWO SEEN IN PROOF"**. On a comparative scale of values, this great rarity should therefore be "worth" at least

2,500.00

1122—1832 PROOF WITH GLITTERING DEEP BLUE & GOLDEN PATINA. **VERY RARE. SHOULD EXCEED**

1,000.00

1123—1833 SHARP STRUCK, obverse Uncirculated with lovely blue patina, reverse GLITTERING BLUE PROOF, RAISED EDGE BOTH SIDES! Probably a "Presentation Piece" made by carefully striking a planchet which had been polished on one side (a not infrequent occurrence in these early coins when time and money did not permit all the procedures required to produce a full proof (within the "meaning" as the term "proof" is used today). **A lovely specimen probably now worth close to**

500.00

| 1126—1837 Bust, GLITTERING BLuish GOLDEN PROOFLIKE GEM! Not in the virtually complete set of dimes in the April 1966 Merkin sale. This "Fantastic" specimen may have been intended as a "Presentation Piece". Whatever the reason for its striking, IT IS THE CHOICEST SPECIMEN WE CAN RECALL SEEING IN ALL OUR 38 YEARS AS PROFESSIONAL NUMISMATISTS! We doubt if \$500 would produce an equal specimen. | |

<p>1128—1837 GLITTERING BLuish GOLDEN PROOF! A MOST REMARKABLE SPECIMEN GIVING EVIDENCE OF THE HIGH STATE OF WORKMANSHIP POSSIBLE WHEN SUFFICIENT TIME AND CARE WAS GIVEN TO THE PREPARATION OF THIS OUTSTANDING EXAMPLE OF THE NEW GOBRECHT DESIGN. In fact, it compares favorably with the proofs struck many years later! Envelope marked "Merkin April 1966 \$1,200." We cannot be certain if this is that auction specimen but we feel relatively sure that it will please the new owner. Now, 5 years later, with the strong demand for "type" coins in top condition, it could bring closer to double that price or..2,400.00</p>
--

<p>1129—1838-O Large recut "O" variety, BLuish GOLDEN UNCIRCULATED GEM! AN OUTSTANDING RARITY IN THIS CONDITION! Envelope marked \$500 Des. 1958 N.N." In checking, we found that New Netherlands (N.N.) had a sale December, 1958 which contained a choice 1838-O (this one?) which realized \$500. The rarity of this date choice condition has been known to advanced collectors, even though it seems to have escaped the attention of the Guidebook. Obviously, a value of little more than double the very fine price is "out-of-line" for unc. A "GEM" such as this is surely "worth" well four times the "v.f." price of \$240 or over</p>	1,000.00

1855 PROOF "ARROWS" DIME

<p>1132—1855 ARROWS AT DATE, major variety with DOUBLED DATE, GLITTERING BLuish GOLDEN PROOF, RAISED EDGE BOTH SIDES! The Scott Catalog lists this as a separate variety, indicating it is much rarer than the 1855 normal date proof. STRONG DEMAND FOR "ARROWS AT DATE TYPE". Envelope marked "April 1964 Sale \$2,500". It is difficult to actually know what a rarity such as this is actually "worth". We will have a better idea of "worth" after this sale.</p>

1856-1859 PROOF "STARS OBVERSE" DIMES

1133—1856 SMALL DATE, GLITTERING GOLDEN & BLUISH PROOF, WIDE RAISED EDGE BOTH SIDES! VERY RARE. Seldom offered. From a supply and demand factor, we feel this rarity "worth"	750.00
--	--------

- 1134—1857 GLITTERING BLUISH GOLDEN PROOF WITH BROAD RAISED WIRE EDGE! RARE! SELDOM OFFERED. Listed in Scott Cat. at \$500, however the last choice specimen we had was sold at 750.00
- 1135—1858 GLITTERING BLUISH GOLDEN PROOF WITH WIRE EDGE! The first year proofs were publicly sold to collectors. The demand engendered by the influx of new collectors in 1857 (caused by retirement of large cents and introduction of small cents) enabled the mint to sell the "fantastic amount" of 80 proof sets. Prior to 1858, proofs were struck only for special "Presentation Purposes", V.I.P.'s (President, Secy. State, Cabinet Members, Senators, Representatives, Foreign Gov'ts. or Rulers, Foreign Museums, etc.) We have seen or handled "Proofs", "Master Coins", "Specimen Strikes" or "Specially Made" coins of the Philadelphia mint back to 1796, plus some of the Branch Mints. The old Standard Catalogue and the new Scott Catalog both contain a partial listing. We hope this will eventually be expanded. We believe the \$350.00 value listed in the catalog does not fully reflect the very low coinage — particularly since in the intervening 113 years many have been lost or irreparably damaged by passing through the hands of the modern "scrub & rub" opportunists. **BY FAR, THE LOWEST ISSUE OF PROOF DIMES 1858 TO DATE!** We feel a "catalog value" more in keeping with its rarity should be closer to 500.00
- 1136—1859 GLITTERING BLUISH PURPLE WIRE EDGE PROOF! Last year type. Have seen "possibly 800 struck" as mintage figure. Catalogs 200.00

1795 "PROOFLIKE" HALF CENT

New type with small head facing right.

- 1211—1795 G-1 Variety, Lettered Edge, Pole to cap. In envelope of California dealer marked "PROOFLIKE" & "\$3,750.00". It is a breathtaking example and may have been struck as a "Presentation Piece". It is a lovely iridescent color. The finest collection of half cents (Brobston — sold by Stack's Jan. 1963) contained an "about uncirculated" specimen. This lends credence to the claim of it being the "FINEST KNOWN" specimen. Since it is in a "class by itself", it is difficult to know what this remarkable specimen will now bring.

- 1212—1795 G 6 Variety, PLAIN EDGE, THIN PLANCHET (as used from this date on for 1/2c & 1c caused by rise in price of copper) NO POLE TO CAP, virtually Uncirculated, only barest trace friction, early state of reverse die break typical of this variety (much sharper struck than usual for this variety). Easily worth

750.00

1800, 1803, 1809, 1828 HALF CENTS

- 1213—1800 DRAPED BUST, SINGLE LEAVES AT TOP, Uncirculated light steel-blue & tan color, typical strike from rusted dies. Popular for "type". 175.00
1214—1803 Changed wreath reverse, near Uncirculated. 100.00
1215—1809 CLASSIC HEAD, Uncirculated, lovely blended reddish-steel blue, Sharp Struck! Rare so choice. 200.00
1216—1828 12 STARS, Uncirculated tan & brown. RARE. Catalogs low at only 170.00

1832 PROOF HALF CENT

Redesigned type (see 1828 10c, 1829 \$2½, etc.).

- 1217—1832 GLITTERING RED & BLUISH TAN PROOF! A LOVELY "GEM" SPECIMEN OF THIS GREAT RARITY. Among the rarest of all the proof half cents! 1,000.00

1837 HALF CENT TOKEN

- 1218—1837 Virtually Uncirculated, only barest friction, variety with recut 3 in date, attractive tan color with hint of red. RARE SO CHOICE. 175.00

1849 PROOFLIKE HALF CENT

- 1219—1849 Large Date, Braided Hair, glittering iridescent reddish-bluish brown PROOFLIKE with some (but not all) of the characteristics generally associated with proofs. Acquired as a "Proof". Cost \$500 some years ago but we believe a more realistic price based upon its actual condition would be about half.

1793 CHOICE "TYPE" LARGE CENTS

- 1220—1793 S-9, WREATH, VINE & BARS EDGE, Virtually UNCIRCULATED, only barest friction on highest points prevents us from using superlatives. SHARP STRUCK & EVENLY CENTERED. LOVELY LUSTROUS SURFACE WITH SHARP BEADING AROUND BOTH SIDES! The owner claims this to be "UNCIRCULATED" citing the description of the Helfenstein specimen sold by Merkin August 1964 auction "full mint sharpness for the variety, small areas of weakness of curls, identical in extent to those on the Sheldon Plate coin, indicating not wear but the usual failure of the Mint's press to bring up the design in full relief, excellently centered, perfect reverse die". He further believes it to be one of the "60" coins listed in "CONDITION CENSUS"! Regardless of what you call it, we believe it will be difficult to find an equal specimen, even at 6,500.00

1221—1793 S-11c, **LETTERED EDGE**, Virtually Uncirculated, only barest friction, lovely lustrous surface. Certainly **HIGH IN THE "CONDITION CENSUS" LISTING!** Possibly **"THE CHOICEST SPECIMEN AVAILABLE TO COLLECTORS"** as claimed by owner. Only a microscopic nick keeps us from being positive about this claim. Easily worth 8,500.00

1222—1793 S-10, **Wreath, PERIOD AFTER AMERICA**. The original description as it appeared in the A.N.A. convention sale of a decade ago is still with the coin: **"UNCIRCULATED, CHOCOLATE BROWN COLOR. This variety has recently received considerable publicity and considered by some a MAJOR VARIETY (see Chain, Period variety)"**. The present owner acquired it several years later when the market had advanced to "\$5,000.00". Another **"HIGH UP IN CONDITION CENSUS" SPECIMEN!** Probably worth the "present" valuation of 9,000.00

1223—1793 S-14, **LIBERTY CAP**. The original description as it appeared in the A.N.A. convention sale of a decade ago is still with the coin: **"1793 Sh-14 Liberty Cap. Type with heavy die break from edge at "E" in Liberty through bust to opposite edge at "3" in date. Extremely Fine with little or no wear, slightly rough or granular surface which is often characteristic of this variety. Reputed to be third best known!"** The present owner acquired it several years later when the market advanced to "\$5,000.00." Another **"HIGH UP IN CONDITION CENSUS" SPECIMEN!** Surely this great rarity also worth at least 9,000.00

1794-1796-1798-1808 CHOICE LARGE CENTS

1224—1794 S-69, variety with small circular curl & five braided locks. The old description of **"Just about Uncirculated"** seems to fit except for a pin-point nick discernable after close inspection with a glass, attractive reddish brown color. Another **"HIGH UP IN CONDITION CENSUS" SPECIMEN!** Probably exceed the conservative value placed upon it of only 1,500.00

- 1225—1796 S-98, **DRAPED BUST**, single leaves at top, extremely fine and sharp. **RARE VARIETY.** Another **"CONDITION CENSUS" SPECIMEN!** Easily worth over 1,000.00
- 1226—1798 S-184, **Double Leaf top right reverse, Large Date, low 9, UNCIRCULATED WITH LOVELY BLENDED BROWNISH CHOCOLATE COLOR!** Another **"CONDITION CENSUS" SPECIMEN!** Surely such a top-grade specimen worth over 1,000.00
- 1227—1808 **CLASSIC HEAD S-279, 13 Stars**, in an old-time coin envelope dated "4/26/24 Almost Unc." It is indeed in that state of preservation. Lovely lustrous brownish chocolate color with faint hints of red! Another **"CONDITION CENSUS" SPECIMEN!** Probably now "worth" around 1,000.00

1816-1835-1837 CHOICE LARGE CENTS

- 1228—1816 **CORONET TYPE, N-2 variety** (curl of forehead & some leaves not fully defined) **UNCIRCULATED** Reddish olive brown. 135.00
- 1229—1835 **TYPE 1836 UNCIRCULATED** lustrous olive brown with traces of Red, variety with some stars & leaves not fully defined. **RARE SO CHOICE.** 150.00
- 1230—1837 N-10, **Beaded Hair Cord**, small letters, virtually Uncirculated, only barest friction. Cat. unc. 95.00

1839-1843-1847 CHOICE TYPE LARGE CENTS

- 1231—1839 **Type 1838**, very fine and sharp (some roughness of surface). Cat. 32.50
- 1232—1839 **Silly Head**, virtually Uncirculated, only barest friction, lovely steel-blue color. Rare. Catalogs unc. 210.00

1839-1843-1847 CHOICE TYPE LARGE CENTS (Cont.)

1233—1839 Booby Head, UNCIRCULATED LUSTROUS TAN WITH TRACES OF RED, SHARP STRUCK, variety with three top stars not fully defined. RARE SO CHOICE! A remarkable specimen which had several superlatives describing it. The demand for this type in such a choice state of preservation is such that we would not be surprised to see it realize	500.00
1234—1839 Type 1840, UNCIRCULATED WITH LOVELY BLENDED RED & OLIVE TAN COLOR, SHARP RAISED EDGE BOTH SIDES! VERY RARE THUS! Surely this rarity "worth" over	600.00
1235—1843 Type 1842 (obverse & reverse) extremely fine and sharp.	40.00
1236—1843 Obverse 1842, Reverse 1844, virtually Uncirculated, only barest friction. RARE! Catalogs bit low unc. at only	525.00
1247—1847 "Square Bust" type, Uncirculated brown, faint trace red. Cat.	75.00

"1856 FLYING EAGLE—RAREST OF ALL REGULAR ISSUE 1856 CENTS!"

1248—From Dec. 1963 New Netherlands auction (original auction description with coin) "1856. Bold DOUBLED DIE. Brilliant, lightly toned UNCIRCULATED. A "GEM" FIRST-STRIKE, FULLY LUSTROUS WITH LOVELY SEMI-REFLECTIVE SURFACES. Flatly struck up on eagle's head and tail as on the ONLY TWO OTHER EXAMPLES KNOWN TO US FROM THESE DIES! As a non-proof, guaranteed to be one of the approximately 612 originals and worth far in excess of the usual offerings. The obverse die shifted slightly between two successive blows in the hubbing process, as in the case of the famous 1955 doubled die cent, etc. (detailed description of dies)." \$2,350.00 was paid for this GREAT RARITY at that sale about 8 years ago; surely it should now be "worth" closer to	3,500.00

2c 1864 SMALL MOTTO PROOF

1255—1864 SMALL MOTTO, GLITTERING IRIDESCENT PROOF WITH WIRE EDGE BOTH SIDES! NO QUESTION ABOUT IT BEING A PROOF! Careful comparison of this specimen with an uncirculated one reveals that CENTS is more curved, therefore we must conclude that it is Judd 366. The regular dies proof trial piece in copper (Judd 373) is listed at \$3,000.00 but this J-366 piece is not valued. **Evidently its EXTREME RARITY & ABSENCE OF ANY RECORD OF ANY BEING SOLD IN SOME YEARS PREVENTS THE ARRIVAL AT A FAIR VALUATION!** The Guidebook does not price the regular dies in proof (neither does it price the 1864--L cent in proof). The Scott Standard Catalogue lists the regular dies in proof as "R7" (7 to 9 specimens known) & values it \$4,100.00. How this price was arrived at, we do not know as we cannot find any record recent enough to be meaningful. The Scott Catalogue lists the 1864-L cent also as "R7" with a value of \$5,500.00, however the Miles specimen (Stack's April 1969 auction) realized \$6,000.00. Another 1864-L cent in proof was contained in the fabulous collection of proofs offered in our previous sale (294th) and it also realized \$6,000.00. It is interesting to note that **NEITHER THE MILES NOR THE "FABULOUS PROOF COLLECTION" CONTAINED A SPECIMEN OF THE PROOF 1864 SMALL MOTTO TWO-CENT PIECE!** The envelope containing this specimen (a leading dealer) has **"EXCESSIVELY RARE, ONLY 2 or 3 OTHERS KNOWN Ex Farouk"**! We believe this opportunity to acquire **"THE KEY CLASSIC OF THE PROOFS"** to be the closest to the phrase occasionally used "The Chance Of A Lifetime". Regardless of the amount paid for this remarkable rarity, we believe it will "pay dividends" to the new owner, both in pleasure (pride of ownership, display, etc.) and monetarily over the years, (witness the constant rise in values of the classic rarities in modern years) .

It is exceedingly difficult to arrive at a valuation for this rarity but considering the prices realized for the other two "key rarities of the proofs" (1c 1864-L & 5c 1867 Rays) and the number of times they have been offered in recent years, we feel this **"KING OF THE PROOFS"** should be "worth" the price of the 1864-L or 6,000.00

2c, 3c, 5c FIRST YEAR TYPES

1256—2c 1864 Large Motto, Red-Golden unc. (not the usual artificial "red"). Cat.	27.50

1266—3c 1859 Type III, glittering golden Uncirculated, WIRE EDGE BOTH SIDES!	75.00

HALF DIMES CHOICE FIRST YEAR TYPES

1267—1794 GLITTERING GOLDEN UNCIRCULATED. A REMARKABLE SPECIMEN WITH FULL HAIR ON BUST! It is a pleasure to catalog such a specimen after seeing so many which have passed through the hands of the "rub and scrub" specialists. In this unusually choice condition, we feel it to be "worth" a minimum of 3,000.00

HALF DIMES CHOICE FIRST YEAR TYPES (Cont.)

1268—1796 DRAPED BUST, SMALL EAGLE, variety with "LIKERTY", UNCIRCULATED with lovely bluish golden patina, close examination with a strong glass reveals faint rubbing (the old-time "cabinet friction") and pinpoint nick. EXTREMELY RARE AND NOT PRICED IN GUIDEBOOK ABOVE VERY FINE! Acquired over five years ago at \$2,400.00 Surely it should now exceed		3,000.00
1269—1800 HERALDIC EAGLE , virtually Uncirculated, only barest friction, lovely patina. RARE SO CHOICE. Catalogs low unc. at only		1,150.00
1270—1829 CAPPED BUST , Glittering golden Uncirculated, SHARP STRUCK, RAISED EDGE!		150.00
1271—1837 NO STARS, LIBERTY SEATED , Large Date, bluish golden UNCIRCULATED with RAISED EDGE BOTH SIDES! In strong demand.		350.00
1272—1838 STARS, NO DRAPEERY , glittering bluish golden Uncirculated, Raised Edge!		65.00
1273—1853 ARROWS , Uncirculated bluish golden. Catalogs		60.00
1274—1856 Plain Date , Uncirculated bluish golden. Catalogs		40.00
1275—1860 "TRANSITIONAL", obverse 1859, reverse 1860, GLITTERING GOLDEN PROOFLIKE! ONE OF THE CHOICEST SPECIMENS OF THIS RARITY WE HAVE SEEN! ONLY 100 STRUCK WELL OVER A CENTURY AGO. In this choice state, it should surely be "worth" at least		1,500.00
1276—1860 LEGEND OBVERSE , Glittering bluish golden Prooflike, RAISED EDGE!		75.00

1853-O NO ARROWS HALFDIME "PRESENTATION PIECE"

1277—1853-O NO ARROWS, GLITTERING FULL PROOF SURFACES BOTH OBVERSE & REVERSE, "SQUARE" EDGE (reeding) & WIDE RAISED BORDERS AROUND BOTH SIDES! A fantastic specimen which must be seen to be appreciated. The rarity of this date in choice condition is attested to by the Guidebook listing it at \$600 unc. and the Scott Catalogue not valuing it "unc." but instead stating "A large quantity melted at the Mint as worth more than face value. Always found weakly struck on obverse. **EXCESSIVELY RARE IN UNC., VERY RARE E.F.** Usually G-V.G." Acquired some years ago as a **"PRESENTATION PIECE, UNUSUAL SHARP STRIKE ON A POLISHED PLANCHET. POSSIBLY UNIQUE"**. We do not know whether the \$2,500 appearing on the envelope is the owner's cost then or whether it is what he felt it was "worth".

It is difficult to know what value to place upon such a piece today. If rarity and desirability are any criterions of value, then \$5,000.00 would be "in line". It is certainly many, many times rarer than the usual specimen offered. The only way to actually know what this breath-taking specimen is "worth" is to see what it brings.

DIMES CHOICE FIRST YEAR TYPES

1278—1796 SMALL EAGLE, Glittering bluish golden virtually **UNCIRCULATED**, only barest friction, nice Sharp Strike with **FULL BEADING AROUND BOTH BORDERS**, nice **SHARP EDGE REEDING!** A lovely specimen with much luster but we cannot accept it as fully "Uncirculated", even though we have similar specimens advertised as "Uncirculated." Well worth 2,250.00

1279—1798 OVER 97 “TRANSITIONAL” TYPE, Obverse 13 stars (type of late 1797 through 1807) when it was seen how impractical it would be to add a star for each new state. (Tenn. admitted as 16th state middle of 1796). Reverse 16 stars which must have been prepared in 1797 before the decision to standardize stars at 13 stars (both obverse & reverse) UNCIRCULATED WITH PLEASING BLuish GOLDEN PATINA! We note a “gem unc” specimen in the Merkin April 1966 sale realized \$1,350; surely this one 5 years later worth that or more.

1280—1798 Normal Date, 13 STARS REVERSE, virtually UNCIRCULATED, only barest friction, lovely patina. VERY RARE SO CHOICE.	900.00
1281—1809 CAPPED BUST, LARGE SIZE, UNCIRCULATED bluish golden, pinpoint nick. The rarity of this date in this choice state of preservation is evidenced by the fact that the remarkable dime collection in the Merkin April 1966 sale contained uncirculated specimens of practically all dates but the 1809 was “Extremely Fine, small edge test mark” (it realized \$240). The Scott Catalog lists it Fine at \$165, V.F. at \$335 but “. . .” for Unc. and states “EXCESSIVELY RARE IN UNC.” Surely this rarity worth at least \$1,000.00	
1282—1829 REDUCED SIZE, DIFFERENT TYPE EDGE, Glittering golden UNCIRCULATED WITH RAISED EDGE BOTH SIDES!	250.00
1283—1837, NO STARS, LIBERTY SEATED, UNCIRCULATED BLuish GOLDEN, RAISED EDGE, Large Date variety. In strong demand.	400.00
1284—1838 Large Stars, NO DRAPERY FROM ELBOW, BRILLIANT SLIGHTLY GOLDEN UNCIRCULATED, SHARP STRUCK, RAISED EDGE GEM! A remarkable specimen and really rare so choice. Easily worth	175.00
1285—1841 WITH DRAPERY (actually second year of type) Brilliant slightly golden UNCIRCULATED, SHARP STRUCK, CHOICE! Rare thus.	100.00
1286—1853 ARROWS, Brilliant slightly golden UNCIRCULATED GEM! Rare thus.	125.00
1287—1856 Plain small date, Uncirculated bluish golden. Catalogs	50.00
1288—1860 Legend Obverse, Brilliant bluish Uncirculated, Wire Edge.	50.00
1289—1873 ARROWS, near Uncirculated, traces luster. Catalogs unc.	175.00
1290—1875 Plain date, Brilliant slightly golden Uncirculated GEM!	50.00
1291—1892 Liberty Head, Brilliant bluish Uncirculated GEM!	35.00
1292—1916 Mercury, Brilliant Uncirculated GEM!	15.00

TWENTY-CENT PIECE

1293—1875 Prooflike with bluish patina, WIRE EDGE!	250.00
1294—1875-S Brilliant Uncirculated, CHOICE! Rare thus.	300.00

1796 QUARTER

1295—1796 SMALL EAGLE, about very fine with deep blue patina (acquired as “Very Fine” but we feel it is just a bit shy of a full “very fine” grade). Bought several years ago at	2,500.00
--	----------

1805 QUARTER UNCIRCULATED

1296—1805 HERALDIC EAGLE (actually second year of type—1804 is nearly “impossible” unc.). GLITTERING GOLDEN UNCIRCULATED, FULL EDGE DENTICLES BOTH SIDES! EAGLE’S HEAD & MOTTO SHARP WITH ALL STARS ABOVE VISIBLE (2 stars & 2 clouds not quite fully struck up, also tip of eagle’s tail). Obverse stars MUCH SHARPER THAN GENERALLY SEEN (left stars nearly full & right stars half full rather than flat as generally seen). Hair Strands & Collar NEARLY FULLY STRUCK UP (nearly all come flatly struck). A remarkable specimen this choice! A REAL RARITY THUS & IN STRONG DEMAND FOR “TYPE”. If this were in our regular stock, we feel sure we would not have any difficulty “placing” it at	1.750.00
---	----------

1815 & 1831 QUARTERS UNCIRCULATED

1297—1815 CAPPED BUST, Uncirculated bluish golden, SHARP STRUCK (even the center points of the stars are sharp!). Close inspection with a glass reveals a faint rub on the top curl. SUPERIOR TO MOST “UNCIRCULATED” SPECIMENS SEEN! A premium specimen worth over its low catalog for unc. of only	585.00
---	--------

1818 & 1831 QUARTERS UNCIRCULATED (Cont.)

1794 HALF DOLLAR IN "CONDITION CENSUS"

1312—1794 FLOWING HAIR, SMALL EAGLE, 15 STARS (states) virtually Uncirculated, only barest friction, lovely patina, Overton 101 variety (10x11 berries). Scott Catalogue states "EXCESSIVELY RARE IN UNC." and does not value it above "V.F.". The Guidebook also does not value it above "V.F.". Surely this rarity in what must be "CONDITION CENSUS" (it is somewhat superior to the Overton plate specimen) is worth in the neighborhood of	5,000.00
---	----------

1797 "TOP-CONDITION HALF DOLLAR"

1313—1797 DRAPED BUST, SMALLER EAGLE, "½" BELOW, from an old New Netherlands sale described "H-1; B. Ia-Aa. Shattered dies; reverse of 1796. Just about **UNCIRCULATED**. The obverse stars at right weak (actually somewhat sharper than generally seen on the specimens we have handled during our 38 years as professional numismatists—right stars about 50% to 75% full) eagle's breast and high points of wings and left leg slightly rubbed (we do not recall ever seeing a specimen with these features quite as sharp as they are on this, therefore it is highly possible that this is due to the striking from the shattered die). However, a **SUPERB SPECIMEN**, second only to the "Farish" Baldenhofer coin (now in one of America's finest collections). Ex Ten Eyck (Mehl, 1922), Newcomer, Green colls. (quite an impressive pedigree — all 3 outstanding numismatists spared neither time nor money to acquire "The Finest" over a rather extensive period of time)".

"Though slightly commoner as a date, the 1797 half dollar is **MANY TIMES RARER THAN THE 1796 IN VERY FINE OR BETTER CONDITION**. Both years constitute not only rare dates, but very important types, and for that reason choicer specimens have steadily increased in value." We must agree with this analysis of "Steadily increased in value" as a comparison or the Guidebook of 10 years ago with the present edition reveals it has **INCREASED IN VALUE OVER 450% DURING THE LAST 10 YEARS!** Surely this fantastic "CONDITION CENSUS" specimen worth in the neighborhood of

15,000.00

1801 HALF DOLLAR UNCIRCULATED

1314—1801 LARGE HERALDIC EAGLE, 13 STARS, UNCIRCULATED BLUISH GOLDEN, SHARP STRUCK (only the last three stars not fully struck up) HAIR STRANDS SHARP; EAGLE'S HEAD SHARP (even the eagle's eye is sharp!) variety with 13 arrows! We do not know if this is "THE FINEST KNOWN" as claimed when the present owner acquired this remarkable specimen, but we cannot remember ever seeing any choicer specimen (or even its equal) in all our 38 years as professional numismatists! We believe any price assigned to this fantastic specimen is theoretical but in keeping with our policy, we shall attempt to give some guidance in arriving at what it may be "worth". The Scott Catalogue states "EXCESSIVELY RARE IN UNC." and does not price it unc. due to its great rarity! The well known authority, A Kossoff, cataloged the Gene Nichols Type Collection in the A.N.A. Convention Sale, August 1966. Lot 1565 was an 1802 Half Dollar described as "Undoubtedly one of the finest specimens in existence, it could hardly have seen any circulation." That specimen, 5 years ago, realized \$1,500.00. Surely this somewhat rarer 1801, 5 years later, should be "worth" closer to 3,000.00

1807, 1836, 1838, 1839-O CHOICE HALVES

1315—1807 CAPPED BUST, 50 Over 20, Uncirculated golden, close examination with a glass reveals faint rubbing (the old-time "cabinet friction"—generally caused by slight movement on velvet lining of the then prevalent coin cabinets). Catalogs unc. 360.00

1794 CHOICE SILVER DOLLAR

1331—1794 **EXTREMELY FINE, SHARP AND CHOICE!** A remarkable specimen of this rarity and very close to the top condition we have handled in our 38 years as professional numismatists! The Scott Catalogue states "Always weekly struck at left on both sides". This is the exceedingly rare early die state with **ALL LEFT STARS VISIBLE, DATE FULL & SHARP, LIBERTY FULL & SHARP; REVERSE COMPLETELY FULL & SHARP WITH LEFT SIDE AS SHARP AS RIGHT SIDE! THIS IS THE SHARPEST STRUCK SPECIMEN WE CAN RECALL CATALOGING!** While we have seen an "Uncirculated" specimen, it was the usual strike with the left side weak. A most unusual opportunity to acquire a truly outstanding and aesthetically appealing specimen of the rare first year of the "Unit" (edge lettered "HUNDRED CENTS ONE DOLLAR OR UNIT") of our coinage. Acquired 1963 at \$6,500; surely it should now realize closer to10,000.00

1795 DRAPED BUST, SMALL EAGLE CHOICE DOLLAR

1332—1795 Well centered Bust (B-15 variety) **GLITTERING BLUISH GOLDEN PROOFLIKE WITH DEEP SHARP EDGE SERRATIONS AROUND BOTH OBVERSE & REVERSE, EVEN THE CENTER POINTS OF THE STARS ARE SHARP!** A remarkable specimen with a pinpoint nick (which owner used to identify coin in his insurance policy.) The Scott Catalogue lists unc. at \$2,800 but does not indicate what a premium specimen such as this is "worth". Very nearly the equal of the fantastic specimen in our July sale which realized 5,100.00

1798 HERALDIC EAGLE UNCIRCULATED DOLLAR

1333—1798 B-27, 13 STARS, LARGE HERALDIC EAGLE, 13 arrows & 5 small berries (third berry attached to end of leaf) High 8 in Close Date, **UNCIRCULATED WITH ATTRACTIVE PATINA, SHARP STRUCK!** Acquired as "**CONDITION CENSUS**". Ordinary "unc." is listed at \$900 but "choice unc." in the last 3 years have been valued at \$1,500 to 2,000.00. Surely this desirable variety in this remarkable condition "worth" closer to the 2,000.00

1836 STARLESS SILVER DOLLAR

1334—1836 **LIBERTY SEATED WITHOUT STARS, 26 STARS (states) IN FIELD WITH FLYING EAGLE REVERSE, PLAIN EDGE, GLITTERING BLUISH GOLDEN PROOF.** Generally acknowledged as "The Most Beautiful Silver Coin Of The U.S." Quite popular. Catalogs 1,900.00

1839 13 STARS FLYING EAGLE DOLLAR

1335—1839 13 STARS **OBVERSE, FLYING EAGLE IN PLAIN FIELD, REEDED EDGE, DEEP BLUE PATINA.** Careful examination with a glass reveals it has been "improved" to remove some of the minor abrasions acquired during its century-plus existence. **RARE!** Catalogs 4,000.00

1840 PROOF SILVER DOLLAR

1336—1840 **LIBERTY SEATED WITH DRAPERY ADDED TO ELBOW, PERCHED EAGLE.** Envelope has "**ORIGINAL PROOF WITH PATINA**". Close examination reveals some minor abrasions such as generally acquired from being kept loose with other coins. We note the Scott Catalogue on page 122 states "Restrikes exist for all dates 1840-52". Generally speaking, the restrikes resemble the proofs produced in the 1860's but the "originals" varied in quality from coin to coin and date to date and did not have the "polished medalic appearance of the later date proofs". **VERY RARE!** Catalogs 1,100.00

1866, 1878 PROOF SILVER DOLLARS, 1921 UNC.

1337—1866 **MOTTO, GLITTERING BLUISH GOLDEN PROOF. CATALOGS** 375.00

✓ 1338—1878 8 Tail Feathers, BRILLIANT SLIGHTLY GOLDEN PROOF! A lovely specimen of this rarity in strong demand as a “type”. The rarity of this is obscured by the fact that most of the specimens we have seen offered as “proofs” have proven to be choice “first-strikes” when closely examined. We believe a choice specimen of a true proof of 8 feathers to be worth	500.00
1339—1878 7 Tail Feathers, GLITTERING BLUE PROOF! A MAGNIFICENT SPECIMEN OF THE RAREST PROOF SILVER DOLLAR 1878-1904! About 90% of the “proof” 7 feathers silver dollars we have seen offered have proven to be otherwise when closely examined. We doubt if more than a small fraction of the only 300 specimens struck 93 years ago still survive, particularly in this remarkable state of preservation. The 1895 and other “rare” proof silver dollars are occasionally offered, but how many “true proof” 1878 7 feathers proof silver dollars have you seen offered? Easily worth over	1,000.00
1340—1878 7 OVER 8 Tail Feathers, Glittering Bluish Golden Prooflike with Wire Edge. Acquired as an 1878 7 feathers “Proof” some years ago but close examination with a glass reveals its true nature. Probably “worth” in the neighborhood of	100.00

1956 DENVER MINT 50 YEAR COMMEMORATIVE SET

1536—Mounted in plastic with appropriate lettering but accompanied by ORIGINAL CONTAINER (most since seem to have been lost or destroyed as very few of the sets we have seen in the intervening 15 years have this container—nearly all seem to have been mounted in plastic for easy display and protection). Original Container states “FIFTY YEARS OF COINAGE IN THE DENVER MINT (1906-1956). Two hundred sets of the J. J. CONWAY (\$2½, \$5, \$10) coins have been reproduced in goldine from the original dies, now in the State Historical Society of Colorado, in commemoration of the Fiftieth Anniversary of the operation of the Denver Mint. J.J. Conway & Company coined gold in Georgia Gulch, near Breckenridge, Colorado, during the summer and fall of 1861.” “Clark, Gruber & Company, a private mint in Denver, was purchased by the government in April, 1863, and continued as a refining and assaying office until 1906, when coinage was begun February 1st.” The reverse of the Original Container has “MAP SHOWING TOPOGRAPHY AND MINING CLAIMS IN THE BRECKENRIDGE DISTRICT, COLORADO” below a map with “Georgia Gulch” location circled. Some of the sets have been broken up (or complete sets) have been placed among collections of Pioneer & Territorial Gold Coins as the J.J. Conway coins are Excessively Rare and impossible to obtain. These, along with those removed from normal numismatic channels (impounded in museums, institutions, etcetra) do not leave many available for the collector of Commemoratives, historical items or the unusual. RARE.	500.00

TERRITORIAL COLORADO GOLD PIECES

1860 \$2½-\$5 "CLARK & CO.; PIKES PEAK GOLD DENVER"

1560—\$2½ Liberty Head similar in style to regular U.S. coin, **UNCIRCULATED WITH SHARP RAISED EDGE BOTH SIDES**, usual soft strike from partially worn dies (center of obverse & reverse not fully struck up). **RARE!** Record of \$750 and more.

1561—\$5 Similar type, **BRILLIANT UNCIRCULATED WITH RAISED EDGE BOTH SIDES, EXTREMELY RARE EARLY DIE STATE WITH REMARKABLY SHARP IMPRESSION! AN OUTSTANDING RARITY SO CHOICE!** 1,500.00

1860 \$10-\$20 "CLARK GRUBER & CO.; PIKES PEAK GOLD DENVER"

1562—\$10 Mountain design, extremely fine with some luster. **RARE!** Acquired 9 years ago at \$1,500, surely this desirable rarity should now be worth closer to 2,000.00

1563—\$20 Mountain design, **UNCIRCULATED**, gold-plated copper. Listed in Scott in copper as "R7" (**ONLY 7 TO 9 KNOWN**) but gold-plated not mentioned. The Guidebook lists the normal gold "Public Auction Sale,, 1963 Ex. Fine \$5,000.00". Of course the market for rarities has advanced since then. This particular specimen was acquired 9 years ago at \$660, surely it should now be worth closer to 1,000.00

1564—\$20 Similar but copper, extremely fine and sharp. "**ONLY 7 TO 9 KNOWN!**" Acquired some years ago at \$550.00. Present value?

1861 \$2½-\$5-\$10-\$20 "PIKES PEAK; CLARK GRUBER & CO. DENVER"

1565—\$2½ Liberty Head similar in style to regular U.S. coin, **Virtually Uncirculated**, only barest friction. **RARE SO CHOICE!** Catalogs \$500 in only extremely fine; surely this choicer specimen worth at least 600.00

1566—\$5 Similar type, very fine (what appears to be wear is in part due to the weakness in striking the central portion). **RARE.** Catalogs 500.00

1567—\$5 Similar, **COPPER PATTERN**, very fine. **RARE.** Acquired over 6 years ago at \$350.00. Present value?

1568—\$10 Similar type, **virtually Uncirculated**, only barest friction, even though the right eagle's claw is not fully struck up, **IT IS ONE OF THE SHARPEST STRUCK SPECIMENS WE HAVE CATALOGED IN OUR 38 YEARS AS PROFESSIONAL NUMISMATISTS!** Listed at \$575 in extremely fine but not listed unc. due to its rarity thus. This remarkably choice specimen well worth 900.00

1569—\$20 Liberty Head, very fine. **VERY RARE!** Listed \$1,850 v.f. in Scott but we believe this price to be theoretical as it was bringing more the few times it was offered over a decade ago. This particular specimen was acquired over 6 years ago at \$2,200 and should surely now be worth over 2,500.00

1570—\$20 Pattern trial piece of above, **STRUCK IN COPPER & GOLD-PLATED, reeded edge**, extremely fine and sharp. Scott lists "copper pattern R7 (only 7 to 9 known) from two pairs of dies, the first not quite finished, the second finished and as adopted with V over N in DENVER." This from the adopted dies. This acquired 6 years ago and valued then at \$750.00. Present Value?

1571—\$20 Pattern **STRUCK IN COPPER** with different obverse die (last star much further from date) but reverse has V over N in DENVER, tiny planchet chip at edge (as made) plain edge, appears to be Uncirculated but top hair strands not quite fully struck up. Acquired 9 years ago at \$495.00. Present value.,
